Summary
I am a motivated engineering student at ENSEEIHT, specializing in Digital Science. With a solid foundation in computer science, I am passionate about developing innovative technologies and solving complex problems. I am eager to apply my skills in programming and software development to real-world projects and explore opportunities in software engineering and AI.

Experience

LIG - Computer Science Laboratory of Grenoble	**May 2024 - June 2024**
Intern	Grenoble, France

⌘ https://www.liglab.fr/en

Development of a chatbot prototype for elderly people based on co-design.

Kotlin - Teamwork - Customer relationship - Adaptability

Education

ENSEEIHT (National Higher School of Electronics, Electrical Engineering, Computer Science, Hydraulics, and Telecommunications)	**September 2024 - June 2027**
Digital Science Engineering	Engineering

⌘ https://www.enseeiht.fr/en/index.html

ADA

The INP Preparatory Program (La Prépa des INP)	**September 2022 - June 2024**
Mathematics, physics, and engineering sciences	Two-year preparatory program for engineering schools

Python - SQL

Le Sud School	**June 2022**

⌘ https://www.lesud.ma/

Mathematics Sciences B Baccalaureate (Sciences Maths B) with distinction

---

Projects

Sunflower	**March 2024 - May 2024**

The project involved building a solar tracker using four photoresistors and an Arduino board.

Teamwork, Communicatioon, Brainstorming, Adaptability, C++

Interests

Basketball	Scrabble	Traveling
